WALLPAPER PREPARATION

All walls should be clean and smooth. Plaster walls and ceiling should be primed with an oil base primer and should be sized. Latex, semigloss or enamel walls should be sanded and primed with an oil base primer. Plasterboard walls should be sealed and sized. We recommend the use of lining paper on all walls. We do not recommend the use of pre-sized adhesives for hanging Kelly Wearstler wallcovering.

WALLPAPERS

All papers should be hung with good quality wheat paste or a non-staining cellulose paste. Adhesive left on the surface of the paper may cause flaking. Variations in dye lots can cause slight shifts in color from order to order.

For custom inquiries and pricing, please contact the Kelly Wearstler Flagship Boutique 323.895.7880

DISCLAIMER These instructions are meant to assist in the process of installation. Please consult a professional wallpaper installer with queries or quantity required for a successful installation. Kelly Wearstler Lifestyle LLLP does not take responsibility for final execution. Wallcoverings cannot be returned.
